

**NORTHWEST TERRITORIES HEALTH AND SOCIAL SERVICES AUTHORITY
STANTON TERRITORIAL HOSPITAL MEDICAL DIRECTOR**

STATEMENT OF DUTIES

SUMMARY OF ROLE RESPONSIBILITIES

As part of a leadership dyad with a Chief Operating Officer, the Stanton Territorial Hospital Medical Director (STH-MD) oversees planning, management and evaluation of health care services provided by Practitioner Staff working within STH (the “Area”), aligned with the priorities and strategy set by the Northwest Territories Health and Social Services Authority (NTHSSA).

FUNCTIONAL REPORTING RELATIONSHIPS

The STH-MD reports and is directly accountable to the NTHSSA Territorial Medical Director (TMD) but operates in a dyadic working relationship with the Chief Operating Officer (COO) for the NTHSSA-Stanton Territorial Hospital.

The STH-MD has direct management responsibilities for the organization of all medical services within the facility and its outreach services (including travel clinics). The STH-MD advises the TMD on the appointment of territorial clinical leads to provide clinical expertise and advice in particular clinical program areas, and/or be involved in quality improvement activities, audits or other projects.

The STH-MD works collaboratively with co-leaders in Nursing/Allied Health management, Managers of other specialized areas and other appropriate NTHSSA and DHSS leaders to ensure that services provided by Practitioners throughout the area align with population health needs,

Version: June 2020

are patient centered, and conform to established standards and best practices, as well as relevant NTHSSA policies and procedures.

The STH-MD is a member of:

- the Territorial Practitioner Executive Committee (TPEC)
- the Territorial Application Review Committee (TARC)
- the Executive Decision-Making Forum.

KEY AREAS OF RESPONSIBILITY

The STH-MD has the following key areas of responsibility:

1. Leadership of Human Resources

The STH-MD is accountable to the Territorial Medical Director for the following:

A. Practitioner Staff Organization within STH

- Physician Workforce Plan:
 - Maintaining a physician workforce plan for the assigned geographic area and provide recommendations to the TMD on overall NTHSSA physician workforce plan.
- Recruitment
 - With support from the COO and the Office of Medical Affairs and Credentialing (OMAC), provide leadership related to physician recruitment.
 - In collaboration with the TMD and other AMDs, contribute to physician recruitment efforts across the NWT.
- Orientation:
 - With support from the COO, OMAC and other regional resources, guiding the area-specific orientation process for practitioners.
 - Provide advice to the TMD and the Manager of OMAC with regard to general onboarding policies and other orientation matters.
- Scheduling and Deployment:
 - With support from the COO and OMAC,
 - Oversee scheduling and equitable regional deployment of physician resources that aligns with needs of the population.
 - Approve overtime requests for physicians.
 - Approve leave, including CME.

B. Physician Staff Assessment:

- Periodic Review:
 - Performing Periodic Reviews (once established) of Physician Staff within the assigned geographic area, with support of OMAC

- Appointment Process (Credentialing/ Privileging)
 - Participating actively on TARC, including review of applications assigned by the TARC Chair.
 - Monitoring adherence of Physician Staff in the assigned area to their approved Privileges and to recommendations from Periodic Reviews for maintenance of Privileges, as well as to other Policies and Procedures.
- Locum assessment:
 - Ensuring appropriate evaluation and endorsement of locum physicians for re-hiring purposes
- Concerns/ Triggered Assessments
 - Evaluation of physician concerns and/ or implementation of triggered assessments according to processes set out in the Medical and Professional Staff Bylaws, related to medical practice in the assigned geographic area.

C. Education:

- Promote educational opportunities for practitioners and associated staff.
- Advise and assist the Medical Education Program Lead in the implementation and scheduling of training and learning opportunities for medical learners, including medical students and residents.

2. Program Delivery and Development

In partnership with Stanton’s COO, the STH-MD provides leadership and collaborates with other managers in the development and implementation of clinical services and programs throughout the assigned geographic area that are characterized by a patient-centered, culturally safe, evidence-based, and collaborative practice between Practitioners and other members of the health care team.

The STH-MD is accountable to the Territorial Medical Director for the following:

A. Quality Care

- In collaboration with the COO and management counterparts, identify opportunities and implement plans for quality improvement and assurance in the delivery of programs and services that will align with NTHSSA priorities

B. Clinical Standards

- Promote adherence to territory-wide clinical guidelines, policies and procedures as well as the Accreditation Canada Continuous Quality Improvement process

3. Collaboration

Version: June 2020

- Facilitate communication and collaboration amongst practitioners and staff involved in the care of patients within the Area
- Facilitate communication and collaboration with other Area Medical Directors, Clinical Leads and community-based programs and services on issues pertinent to the delivery of programs and services.

4. Other:

- Set an annual work plan and quarterly report for the Area to be submitted to the Territorial Medical Director and shared with the Territorial Practitioner Executive Committee
- Assist in drafting and/ or amending Practitioner Staff Rules, policies and procedures.
- Participate in the Territorial Practitioner Executive Committee
- Participation in area administrative committees as may be required
- Liaise with other external regional partners (e.g. indigenous governments, school authorities and relevant NGOs) as may be required

JOB REQUIREMENTS

Education and Experience

- Medical Degree plus Residency with a minimum of 3 years' clinical experience
- Licensed or eligible to be licensed to practice in the NWT
- Demonstrated leadership and administrative skills and abilities gained through other leadership positions or roles, including leadership experience in an acute care environment (ideally in a senior role such as program director, medical director or department head)
- Leadership training (such as CMA PLI courses)
- Experience working in a multi-cultural and/or northern environment

Skills

The successful candidate will possess the following skills:

- An ability to secure the commitment of key stakeholders in advancing the goals of the organization, including a sensitivity to political and other external environmental issues and their impact on health care.
- Leadership of interprofessional/multi-disciplinary teams that value decentralized decision-making, inclusiveness, flexibility, creativity and collaboration with others to obtain results.
- Understanding of overlapping scopes of practice of healthcare providers
- Change management

- Performance management including coaching, providing constructive feedback and implementing formal medical bylaws processes
- Financial skills: managing physician expenditures to budgeted allocation, optimizing expenditures while improving care and service
- Cultural safety: enhancing cultural safety for indigenous population served as well as indigenous workforce
- An ability to promote compliance with national healthcare standards i.e. accreditation, safety standards and ethical and legal requirements.
- Improvement sciences: knowledge of tools, processes and evaluation.
- Excellent written and oral communication skills.
